

Omega Series™

The Omega Series™ clamp assembly retains, guides, protects and uniformly spaces line runs. Attached with two standard fasteners to any flat surface, the Omega Series™ clamp eliminates the use of special channels, providing a savings in both space and cost. They go up fast, lines are rigid and look neat.

THE CLAMP — Steel with gold electro-dichromate finish, or stainless steel type 304.

THE CUSHION — Manufactured from a thermoplastic elastomer, it's built tough to withstand the effects of most oils, chemicals and industrial cleaning compounds, Interlock edge ensures that the cushion remains in place.

Stainless Steel

Assembly consists of clamp and thermoplastic elastomer cushion. Fasteners not included.

Standard Temperature: -50°F to 275°F (-45°C to 135°C)

Stainless Steel

Gold Electro-Galvanized Steel

Omega Series Extreme Temperature: -65°F to 340°F (-53°C to 170°C)
